Interests

- Tech gadget reviews
- Travelling
- Swimming

Career objective

- Bring out the best of what I was taught in school
- Be able to satisfy peoples needs in my field of work as per my specialty
- Learn more coding languages
- Improve on my current developing skills

Future aspiration and ambition

- To be an inspiration to the young as they will look up to me in many various different ways .
- To know many people who are in the same line of work as me and network so as to improve on self skill.
- Be able to be employable and ready to work with others and in the future also be able to be self employed and employ the young.
- Be able to bring various solutions and ideas to the table.
- To come up with ideas / develop a website that will ease or normal living in all fields and will be unique .
- First_work in an organization that will expose me ,come across various obstacles ,have people that will guide me and also reciprocate the same to young developers as I start my own IT firm.
